

Internship

Job Type:	Internships, minimum 5 months
Department:	Product
Location:	Klagenfurt, Austria
Reporting to:	Senior Product Architect
Start Date:	September 2008

Function

Each year, Jahia is pleased welcoming several top level IT student engineers who are finishing their studies. The students are coached by Jahia senior architects or/and the CTO as any member of the Jahia product department. They are in charge of the development of a real feature required by our clients. This means the student will be given a highly motivating internship, which will require both technical skills and ability to deliver a project. Jahia offers several internships no shorter than 5 months full time.

Skills

- Last year of your Msc or PhD or French "Grandes Ecoles",
- Knowledge of Java, J2EE,
- Strong knowledge and motivation for encoding software,
- Motivation to join a software editor team committed to deliver highly complex solutions to their client,
- Motivation for Open Source projects,
- Results oriented,
- Fluent in English **and** either French or German,
- Being fluent in any other language is desirable.
